REMARKS

The amendment to Figure 4A is to correct a typographical error. The numerical equation is to show the difference between the melting onset temperature (-8.16°C) and the solidifying onset temperature (-5.01°C) of the materials in Example 2. Support for the number, -5.01, in the amended equation can be found in Figure 4B. As such, no new matter is added by this amendment. Applicant respectfully requests the entry of the amendment and the Replacement Sheet of Figure 4A enclosed herein as Appendix.

Respectfully submitted,
